

A HOLLYFRONTIER BUSINESS

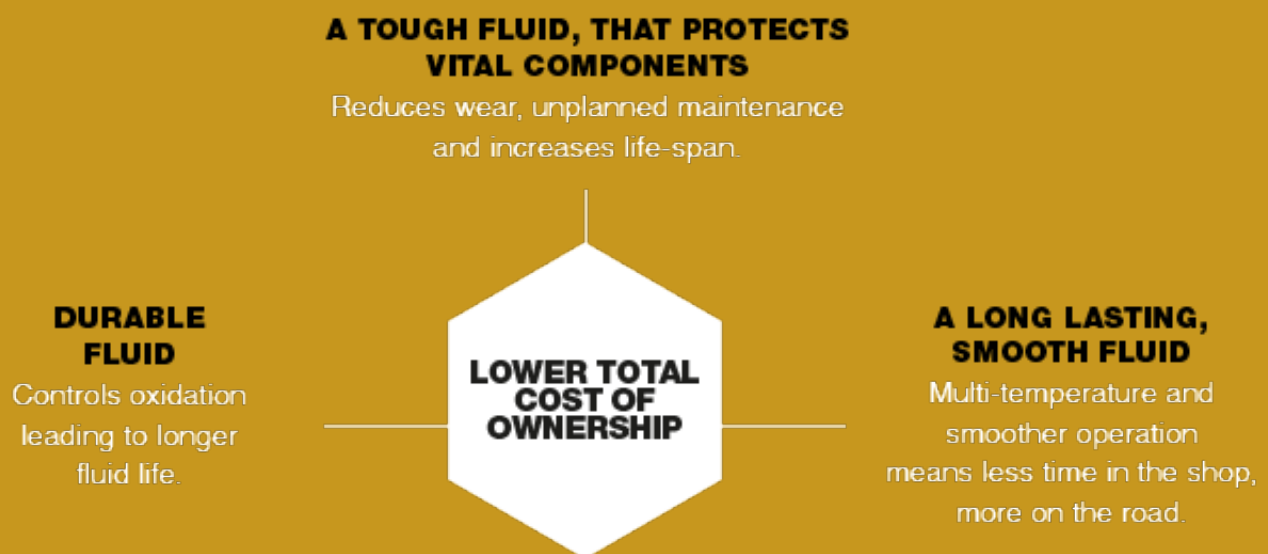

ALLISON TRUSTS DURADrive. SO SHOULD EVERYONE ELSE.

Introducing the **global factory fill fluid** for Allison Transmissior new tough specification - TES 668™. **DURADrive HD SYNTHETIC 668.**

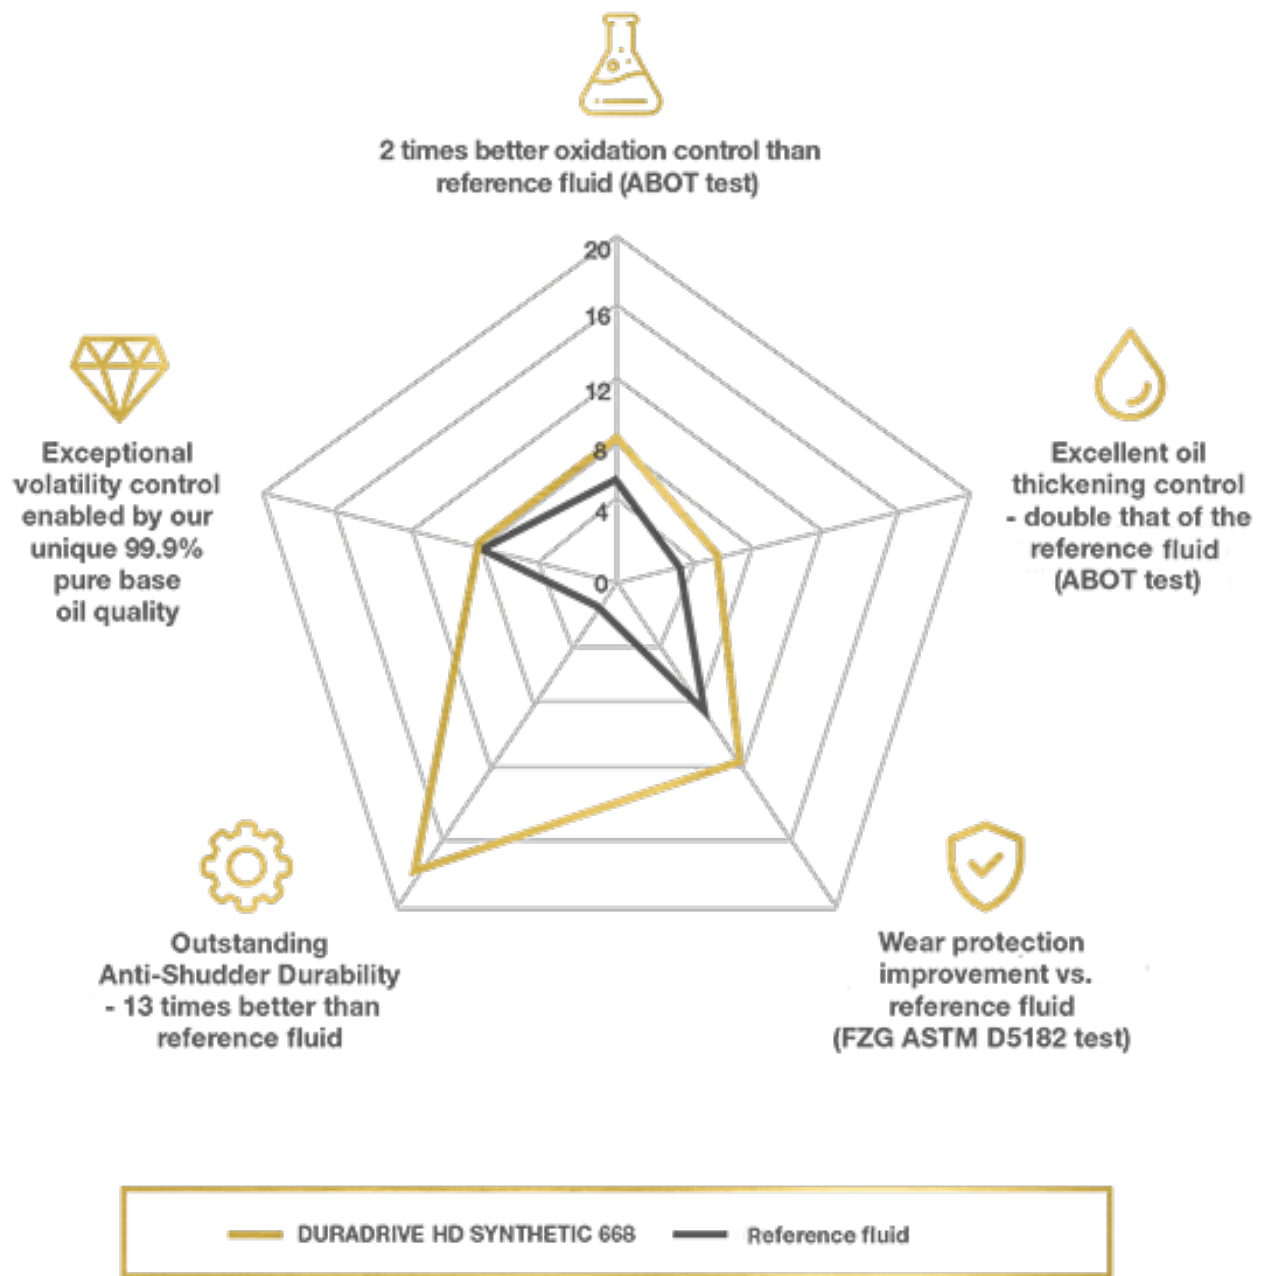

ALLISON CREATED TES 668™ TO GIVE CUSTOMERS MORE. DURADRIVE HD SYNTHETIC 668 DELIVERS.

We created DURADRIVE HD SYNTHETIC 668, an ATF so advanced and protective, Allison chose to make it **first fill in every TES 668™ specified transmission that leaves the factory.**

PERFORMANCE THAT EXCEEDS EXPECTATIONS.

You can see for yourself how the results stack up to make **DURADRIVE HD SYNTHETIC 668** the choice for Allison's global factory fill fluid, and the best choice for our customers.

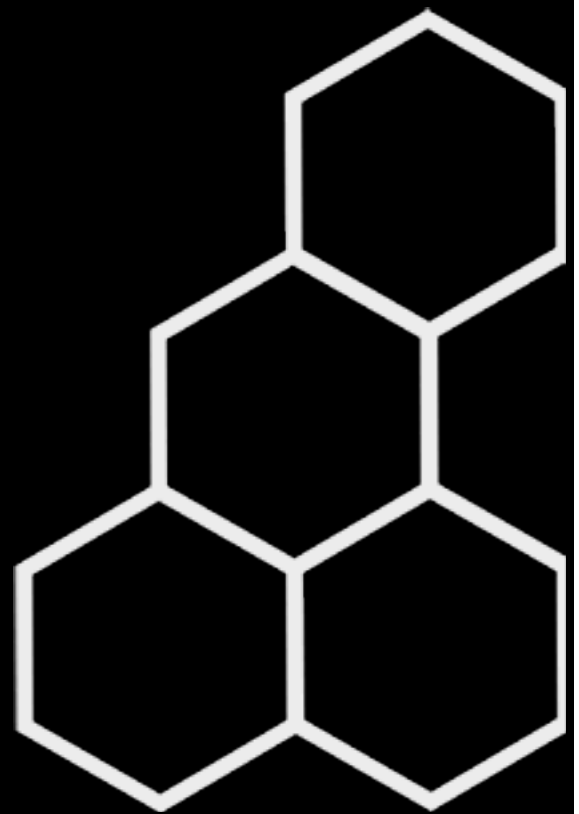

**ALLISON HAS BEEN
DEVELOPING LEADING
TECHNOLOGY FOR OVER**

100 YEARS. TO GET THEIR APPROVAL, YOU HAVE TO EARN IT.

By leveraging our world class R&D capabilities and highly consultative working practices, we developed a superior solution.

The rigorous validation program resulted in **DURADRIVE HD SYNTHETIC 668**, an ATF with extreme durability, excellent wear protection and enhanced oxidative stability.

Allison demands the best. So do their customers. [For more information visit DuraDrive668.com.](http://DuraDrive668.com)
