## PURITY™ FG2 MULTI PURPOSE — FOR YOUR TOUGHEST FOOD PROCESSING CHALLENGES

Ian Collins, Category Manager

PURITY FG2 MULTI PURPOSE is an all-new food grade grease that contains a patented thickener complex to provide outstanding protection from wear and extreme pressure. This new formula delivers excellent mechanical stability in the presence of heat and water to keep surfaces well lubricated, prolongs component life and helps reduce unplanned downtime.

PURITY FG2 MULTI PURPOSE meets the highest food processing standards with NSF H1, Kosher Pareve and Halal registrations.

It provides outstanding performance for general applications:

- High load-carrying capability and excellent protection against wear
- Excellent oxidation resistance to extend grease life
- Protection against rust and corrosion

- Resistance to lubricant breakdown and water washout in harsh operating environments
- Effective pumpability down to -20°C (-4°F)
- Fortified with additional EP additive to withstand high loads
- Designed to deliver effective performance in roll bearings of animal feed pellet mills
