SYNDURO™ SHB 100

A HOLLYFRONTIER BUSINESS

SYNDURO™ SHB 100 **FOR INDUSTRIAL** **GEARS, BEARINGS AND** **COMPRESSOR** **APPLICATIONS**

SYNDURO SHB 100 is the latest addition to the SYNDURO SHB line of synthetic multifunctional fluids specially formulated for the lubrication of gears, bearings and air compressors operating under demanding conditions.

SYNDURO SHB fluids are available in 32, 46, 68, 100, 150, 220 and 460 grades. Meeting the highest industrial standards, these fluids are ideal for a wide range of applications in the forestry, mining, marine and heavy-duty industries, where low seasonal startup temperatures and / or high operating temperatures prevail.

SYNDURO SHB fluids deliver:

- Highest oxidation stability in their class
- Excellent thermal stability
- Superior wear protection
- Excellent resistance to rust and corrosion

- Wide temperature range
